- Track Description
- Track Goals
- Responsibilities of Participants
  - Observers
  - Participants
- List of Participants in the track
  - Reference to test servers
- How to find a test partner
Track Lead

- Ron Shapiro
- VP & CTO, Qvera
- participant since FHIR Connectathon 6
- HL7 Modelling and Methodology Workgroup co-chair since 2017
Track Description

• This track provides new participants with a friendly introduction to FHIR, using a simple scenario that can be met with limited domain knowledge and by those who have not had a lot of exposure to FHIR.

• [https://confluence.hl7.org/display/FHIR/2022+-+09+Patient+Track](https://confluence.hl7.org/display/FHIR/2022+-+09+Patient+Track)
Track Goals

• Successfully Create, Update, Retrieve and Delete a Patient FHIR resource

• Additionally: Use a FHIR testing platform to complete the same scenarios
Track Roles and Preparation

• Client: come prepared to interact with a FHIR Server
• Server: come prepared for Clients to interact with your server
How to get your questions answers

• Zulip (chat.fhir.org)

• Ron Shapiro <ron@qvera.com>
