CARIN IG for Blue Button Potential Updates

- **FHIR-40820** - Add guidance for provider access to non-financial claims data.
- **FHIR-40999** - Create a non-financial set of EOB Profiles.
- Additional Jira tickets to review.
- **FHIR-41217** - Add Support for Provenance in a Payer to Payer Data Exchange Scenario
  - FHIR-40243, FHIR-40244, FHIR-40245, FHIR-40361, FHIR-40441, FHIR-40593, FHIR-41173
Proposals

Provider Access API

In order to better facilitate coordination of care, and support movement toward value-based payment models, we are proposing to require impacted payers to build and maintain a Provider Access API to share patient data with in-network providers with whom the patient has a treatment relationship. We are proposing that they make patient claims and encounter data (excluding cost information) available to in-network providers beginning January 1, 2026.

Payer-to-Payer Data Exchange on FHIR®

In an effort to ensure a patient’s data can follow them throughout their health care journey, we are proposing to require that payers would exchange patient data when a patient changes health plans with the patient’s permission. Those data would include claims and encounter data (excluding cost information).
