Consensus Voting: New Process
New Consensus Voting Process

- Moving from virtual voting period to live voting to more efficiently arrive at consensus with committed and engaged members
- We will accomplish this within our public calls with notification at the prior meeting and through community email
- This means we ask for comments to be submitted as part of the end to end review.
  - This will allow integration of the comments into the final set under vote.
- The Housing Instability, Homelessness, and Inadequate Housing sets will all be voted upon in the next meeting, 10/29

Inadequate Housing Goals- Pause for consensus

- It has come to light that there is a need to integrate goal approaches across multiple patient-centered standard and interoperability initiatives.

- In order to allow time for consensus we are momentarily pausing goal finalization until there is agreement on:
  - Terminology
  - Perspective
  - Syntax
  - Etc.....

- “We’ll be back!”
