

Monthly Meeting

Time: Wednesday, September 16, 2020, 10:00 am - 10:30 am EST

Location: ZoomGov Meeting

Meeting ID: 161 771 8677

PACIO Project Website: www.PACIOproject.org

PACIO Project HL7 Confluence: <https://confluence.hl7.org/display/PC/PACIO+Project>

This meeting is being recorded. In all discussions, members should be aware that meetings are recorded and include representatives of companies that may compete with one another in the marketplace. This working group is a public forum and therefore all information shared will be publicly available.

Summary

1) Leadership Update (Dave H., Siama R., MITRE)

- September HL7 Connectathon Report Out Summary:
 - Leadership provided a high-level summary of PACIO's Connectathon track, including the purpose, patient story, use case, and system architecture. Refer to slides 5-6 of the meeting material for related images.
 - Highlights from the PACIO-eLTSS Care Transition Track include:
 1. Successful exchange of data between 15+ systems using 4 FHIR IGs.
 2. Discovery of communication issues between the PAC assessment app, the pseudo-EHR, and the data manager.
 3. Successful calculation of two eCQMs (CMS 104 and CMS 149) by the Clinical Reasoning Track using PACIO data.
 - Rob Samples provided further updates on the Clinical Reasoning Track. The CMS 104 eCQM measured a period of performance in 2019 and the PACIO data provided was for calendar year 2020. The track participants had to update the time period value sets in order to successfully evaluate the measure. The Clinical Reasoning team will continue to evaluate data exchange methods to move toward calculating measures directly from hospital EHRs.
 - The leadership team would like to thank all Connectathon participants, collaborators, vendors, technical teams and presenters who helped make this track a success.
- Future Use Case Update

PACIO

- The PACIO workgroup will formally vote to move forward with two use cases during the September 16th PACIO Project – Combined Functional Status and Cognitive Status Weekly Meeting.
 1. Advance Directives: Various HL7 workgroups have explored this use case, but efforts are not coordinated. PACIO is working with the HL7 Patient Empowerment Workgroup potentially to coordinate these efforts and identify where PACIO could provide the most impact.
 2. Speech Pathology: There is an opportunity to collaborate with the American Speech-Language-Hearing Association (ASHA) as they begin researching value sets and FHIR standards related to their data elements.
- The PACIO workgroup is continuing to consider the Post-COVID future use case as well.

2) Walk-On Topics

(5 mins)

3) Upcoming Convening Opportunities

- Leading Age Summit will be held on September 13-15, 2020
 - https://www.leadingage.org/Collaborative_Care_HIT_Summit

4) Next Meeting

- Wednesday, October 21, 2020, 10:00 am – 10:30 am EST

5) Adjourn
