

Monthly Meeting

Time: Wednesday, October 21, 2020, 10:00 am - 10:30 am EST

Location: ZoomGov Meeting

Meeting ID: 161 771 8677

PACIO Project Website: www.PACIOproject.org

PACIO Project HL7 Confluence: <https://confluence.hl7.org/display/PC/PACIO+Project>

This meeting is being recorded. In all discussions, members should be aware that meetings are recorded and include representatives of companies that may compete with one another in the marketplace. This working group is a public forum and therefore all information shared will be publicly available.

Summary

1) Leadership Update (Dave H., Siama R., MITRE)

- New Advance Directives Lead Announcement: Maria Moen will lead the work for PACIO's Advance Directive use case. Maria is a member of the HL7 Patient Empowerment Workgroup, which is the sponsor for this work, and has hands-on experience in this area from her work with MyDirectives.
- Status of Functional and Cognitive Implementation Guides (IG) in Ballot:
 - Both IGs entered the Standard Trial Use 1 (STU1) ballot process on October 20th.
 - PACIO leadership will receive all positive and negative votes with accompanying comments for each IG when the ballot period closes on November 20th.
 - Each IG must receive at least 60% affirmative votes and sponsoring HL7 workgroup approval for community adoption of the standards.
 - The current ballot IGs are available at the following links:
 1. Cognitive Status: <http://hl7.org/fhir/us/pacio-cs/2021Jan/index.html>
 2. Functional Status: <http://hl7.org/fhir/us/pacio-fs/2021Jan/index.html>
- Status of Advance Directives and Speech-Language Pathology Use Cases:
 - PACIO submitted the Advance Directives Project Proposal (<https://jira.hl7.org/browse/PSS-1664>) to HL7, and on October 8th, the HL7 Patient Empowerment Workgroup agreed to sponsor this work and approved the Project Scope Statement

PACIO

(<https://confluence.hl7.org/display/PE/PACIO+Project%3A+PSS+for+Advance+Directives>). Three HL7 Workgroups have agreed to co-sponsor this work:

1. Community-Based Care and Privacy
 2. Orders and Observations
 3. Patient Care
- The next steps for developing the Advance Directives use case include:
 1. Determining the scope of work.
 2. Beginning the data model and terminology analysis to develop a FHIR IG.
 - PACIO leadership confirmed the Project Proposal (<https://jira.hl7.org/projects/PSS/issues/PSS-1665>) for the Speech-Language Pathology work has been developed and the HL7 Patient Care Workgroup has agreed to sponsor this work, however, a lead has not been confirmed. PACIO leadership will meet with the American Speech-Language-Hearing Association (ASHA) to discuss collaboration opportunities and build a project plan.
 - PACIO leadership is continuing to investigate the opportunities for the PACIO workgroup to be involved in a post-COVID use case. The workgroup agrees this is an important, but complex topic which will need further discussion.

2) Walk-On Topics

(5 mins)

3) Next Meeting

- Wednesday, November 18, 2020, 10:00 am – 10:30 am EST

4) Adjourn
