

## PACIO Weekly Meeting

**Time:** Wednesday, February 17, 2021, 1:30 pm - 3:00 pm EST

**Location:** ZoomGov Meeting

**Meeting ID:** 160 985 6747

**PACIO Project Website:** [www.PACIOproject.org](http://www.PACIOproject.org)

**PACIO Project HL7 Confluence:** <https://confluence.hl7.org/display/PC/PACIO+Project>

**This meeting is being recorded. In all discussions, members should be aware that meetings are recorded and include representatives of companies that may compete with one another in the marketplace. This working group is a public forum and therefore all information shared will be publicly available.**

## Summary

### 1) Leadership Update (Dave Hill)

- The HL7 Community-Based Care and Privacy Work Group approved the Reassessment Timepoint Project Scope Statement (PSS) on February 9, 2021, and the PSS and Project Proposal are both currently under review by the HL7 Project Management Office.
- PACIO leadership provided a progress update to the PACIO Monthly Work Group members prior to this meeting today. The presentation is posted on the Confluence webpage (<https://confluence.hl7.org/pages/viewpage.action?pageId=86977192#MeetingIndex-PastMeetingAgendas,Materials,andMinutes>).

### 2) Ballot Reconciliation (Sean Mahoney and Caleb Wan)

- During the February 10, 2021 PACIO work group meeting, the group unanimously voted to accept four of the six proposed dispositions for Block Vote 2 and requested to add the two outstanding dispositions to Block Vote 3. After that meeting, PACIO leadership decided to wait until all six dispositions can be included in Block Vote 2 to send as one package to the HL7 Patient Care Work Group.
- The PACIO work group further discussed Issues FHIR-29993 and FHIR-29994, both issues question the current definition of Cognitive Status.
- One PACIO work group member offered to revise the definition based on today's discussion and share the edits with the group during the February 24, 2021 meeting.

### 3) Advance Directive Information (ADI) Use Case Update (Maria Moen)

- The ADI subgroup met earlier today and is completing an environmental scan of existing advance directive information available within the

# PACIO

community, including paper-based advance directive information, and existing value sets.

- Maria will continue to report out on the subgroup's progress during upcoming PACIO weekly meetings.

#### **4) Reassessment Timepoint Update (Chris Pugliese)**

- Chris shared the working diagram the subgroup continues to discuss and revise which depicts the relationship between the two recommended Profile proposals for a Care Coordination Resource and Reassessment Timepoints, and the current Encounter Resources for acute/ambulatory and post-acute care (PAC) admissions.
- The PACIO work group further discussed the Reason Code field and the Reason Reference field in the Encounter Resource.
  - The PACIO work group discussed challenges using Z codes to reflect social determinants of health.
  - The Account Reference field will be further discussed during upcoming PACIO meetings to determine how to incorporate billing and payment options.
  - The Reason Reference field refers to observations related to a diagnosis. The work group will discuss further whether the primary diagnosis or the admission diagnosis will be referenced in this field. The group also will consider if therapy assessments would apply a different reason code.
- The PACIO work group will continue to define the Reason Code field next week, particularly focusing on how to capture SNOMED and/or ICD-10 diagnosis codes. The group also will plan to discuss how hospitalizations impact reassessment timepoints.

#### **5) Documentation of Decisions and Action Items**

- No notable decisions or action items were addressed today.

#### **6) Adjourn**
