  - Mapping ICF to SNOMED\_CT codes. – Not ideal, ICF will probably become available.
  - Examples given. Technical and legal details weighed.
  - SNOMED\_CT vs. LOINC discussed.
  - LOINC and ICF concepts are divided into similar categories.
  - Next steps: explore LOINC representation, check with HL7 to see if that is a viable option, explore the different levels of granularity to see if it is doable.
