Summary

1) PACIO Leadership Update (Dave Hill)

- PACIO Leadership slides available here:

- **Additional Leadership notes:**
- A participant asked a question not covered in the leadership slides: What is the purpose of the supplemental guides for PACIO Personal Functioning and Engagement (PFE) and Gravity Social Determinants of Health (SDoH)?
 - The PFE implementation guide (IG) combines the Cognitive Status, Functional Status, and SPLASCH IGs, which all defined FHIR Observations that follow a similar structure. Because of this, the PFE Observation profile is defined very broadly, open to all of LOINC. The PFE supplemental guide is a list of recommended value sets for various Observation types, to provide structure, validation, and avoid nonsensical values. The PFE supplemental guide was inspired by Gravity who pioneered this approach for their value sets.

2) Advance Directive Interoperability (Corey Spears)

- Advance Directives Interoperability (ADI) Connectathon report out slides available here: <https://confluence.hl7.org/download/attachments/86977192/2023-01-25%20-%20Jan%20HL7%20Connectathon%20and%20WGM%20-%20PACIO%20ADI%20Report.pptx?version=1&modificationDate=1674748273792&api=v2>
