- **Additional Functional Status and Cognitive Status Notes:**
- At today's subgroup meeting, the community expressed interest in moving beyond the technical discussion of categorization to a clinical discussion of how the IG can be used. This is a goal of STU-1 publication of the PFE implementation guide.

5) Personal Functioning and Engagement (Karl Naden)

- Personal Functioning and Engagement (PFE) slides available here:
<https://confluence.hl7.org/download/attachments/86977192/2023-02-15%20PFE%20Categorization.pptx?version=1&modificationDate=1676515873125&api=v2>
- **Additional PFE notes:**
- Presented a proposal for the STU-1 approach for domain categorization.
- Emphasized that domain categorization is context-free. For example, a domain category indicates that a patient has difficulty eating, not why they have difficulty eating.
- At a future PACIO meeting, we will vote on whether to accept the proposal for supporting domain categorization and clinical categorization for PFE STU-1.
