3) Personal Functioning and Engagement (Karl Naden)

- Personal Functioning and Engagement (PFE) slides available here: <https://confluence.hl7.org/download/attachments/86977192/2023-02-22%20PFE%20Observation.method.pptx?version=1&modificationDate=1677097003286&api=v2>
- **Additional PFE notes:**
- Discussion about Observation.method, which is how the observation was performed, different from the performer.
- If Observation.method is self-performed, then obviously the performer is the patient.
- A community member shared other use cases that are less straightforward, for example a family member fills out an evaluation form for a family member.
- Noted other nuances: Was the form filled out by a scribe? Was an interpreter needed for a patient with limited fluency in English?
