Clinical Interoperability Council

Mission

This work group provides a nexus of communication and bridge to the standards development framework, organizational processes and forums for the clinical community to define content, flow and other domain requirements necessary to the development of robust health data standards. The Council provides a mechanism for clinical domains to develop common approaches to standards-related activities and form consensus on issues of interest among multiple groups.

Liaison Between the Clinical Community and HL7

Outreach to Clinicians to include their expertise in Standards Development

Promote Interoperability Across Healthcare, Research, Public Health, Quality Improvement and other Health Domains through Consensus Standard Data Elements

Charter/Affiliations

The Clinical Interoperability Council (CIC) will establish and support a process whereby a master set of data elements with their attributes will be defined and harmonized using a common process and a common set of attributes. The attributes will include a name (terminology), a unique and unambiguous definition, units, data type and complete value sets. The CIC will assure the decision making practices related to ensuring appropriate subject matter expertise and governance models are employed as part of the master set of data elements definition and harmonization of standards as appropriate.

CIC will support decision making practices related to clinical domain requirements developed by this committee. We will also, collaborate and offer support to other working groups when requested.

Meeting Cadence

CIC holds cross-project calls on the 2nd and 4th Thursday of every month at 2:00 ET. In addition, there are specific project (topic) calls, some of which are on a regular meeting schedule and others are held ad hoc and announced on the CIC listserv.

- Second Thursday Monthly Cross-Project Calls = All Think Cancer Related: Breast Imaging, ICHOM, mCODE,
- Fourth Thursday Monthly Cross-Project Calls = All Things Registries

Co-Chairs

Laura Heermann-Langford
Russell Leftwich

IM: Skype:russ.leftwich

Antitrust Statement

Professional Associations, such as HL7, which bring together competing entities are subject to strict scrutiny under applicable antitrust laws. HL7 recognizes that the antitrust laws were enacted to promote fairness in competition and, as such, supports laws against monopoly and restraints of trade and their enforcement. Each individual participating in HL7 meetings and conferences, regardless of venue, is responsible for knowing the contents of and adhering to the HL7 Antitrust Policy as stated in §05.01 of the Governance and Operations Manual (GOM).
