Welcome to the Confluence Pages of Health Level 7 (HL7)
International

Welcome to HL7's community workspace for creating health data standards that advance global interoperability.

Here in Confluence you'll find the documentation of how we create HL7 standards, the decision making records and notes across all of our sub-groups, and a trove of resources about the HL7 community, its processes, and events.

This site is a community space. Please mind your manners. We welcome your help in keeping it vibrant and up to date by contributing edits, comments, and questions.

A great place to start your HL7 adventure is with the HL7 Essentials page. You can also find tips and documentation for using Confluence and Jira in your HL7 work. If you're new here, you'll need to request a free account before participating.
