Management	Review ANSI Anti-Trust Policy	 <p>Antitrust Policy</p> <p>ANSI's purpose is to develop standards and specifications for health information systems and to promote their use. This purpose is not to be construed as an attempt to create artificial barriers to competition, or to discriminate against any person or organization on the basis of race, gender, or ethnicity.</p> <p>ANSI recognizes that the development of standards and specifications for health information systems is a complex and multi-faceted process that requires the participation of a wide range of stakeholders. To ensure that the development process is fair and equitable, ANSI has established a set of principles and procedures for the development of standards and specifications.</p> <p>Approved by the ANSI Board of Directors May 20, 2014</p>
