

Architecture Review Board

Welcome!

This is the home page for the Architecture Review Board (ARB).

Mission

The HL7 Architecture Board seeks to achieve a coherent architecture for HL7 that defines the relationships across and between the HL7 work products, processes, and organizational structure and how they relate to other standards. This architecture includes the Business Architecture by which these work products are produced, managed and governed.

The HL7 Architecture Review Board (ARB) encourages participation in its work. Interested parties should attend ARB meetings.

Space Organization

Item	Usage
ARB Meeting Index	Meeting list with outstanding Tasks.
ARB Trimester Agendas	Planning agenda for the trimester
ARB Defined TSC Approved Precepts	TSC approved precepts defined by ARB
ARB Works in progress	Items currently under discussion without final decision.
Decision log	Log of binding decisions made during meetings.
