- Update: 2019-02-19 (Craig Newman): Just an update to a FHIR IG that wasn't on your spreadsheet but is on the [2019 May FHIR IG Confluence page](#). We got an update last week that the FHIR Release 4: NHSN Healthcare Associated Infection (HAI) Reports for Long Term Care Facilities (HAI-LTCF-FHIR) is now aiming for a Sept 2019 ballot. We're happy to update the Confluence page if you like. We can either just remove it from the May 2019 page or we could create a Sept 2019 page to start collecting IGs for that ballot cycle. However you want to do it.
