

Cross-Group Projects Home

Welcome to your new space!

Cross-Group Projects Co-Chairs please feel free to populate this space!

Style sheet outline available here: [Style Sheet Outline](#)

Mission

This Work Group facilitates and manages projects that 1) cross multiple Work Groups and 2) either it is impossible to identify a single work group sponsor or no existing Work Group would be considered a natural home for the project. The Work Group provides a place for projects that cross multiple Work Groups to be managed and to provide centralized communication and coordination to all the Work Groups in the organization. The Work Group will facilitate coordination with Work Groups affected by its projects and will provide updates back to those Work Groups.
