4th Wednesday of each month 4:00-5:30 PM (estimated)	Da Vinci Community Roundtable	<p>The goal of the new Community Roundtable is to increase public awareness among payers, providers and vendors of the resources and progress coming out of Da Vinci's efforts.</p> <p>The 90-minute virtual sessions, which will be open to members and the public, will highlight how members leverage the Da Vinci use cases and IGs in action in workflow.</p> <p>Typically, two or three organizations will showcase their work and answer audience questions, allowing for a vibrant discussion and fostering industry understanding of the Da Vinci work products and resulting market solutions. Sessions are anticipated to be recorded and available online for viewing after the event.</p>	<p>April 22, 2020:</p> <p>Payer Coverage Decision Exchange (PCDE) and Alerts /Notifications use cases, presented by Guidewell and Edifecs</p> <p>March 25, 2020: Session: RECORDING and slides</p> <p>Prior Authorization Support (PAS) and Clinical Data Exchange (CDex) use cases:</p> <p>Henry Meyne, Product Line Architect, Availity</p> <p>Dave Degandi, Senior Interoperability Strategist, Cambia Health Solutions</p>	<p>Registration Link Coming Soon!</p>

Wed 18 4:00 -5:00 PM	Multi-stakeholder FHIR Initiative Accelerate Adoption: Advancing Data Interoperability	Join us to learn how HL7 Fast Healthcare Interoperability Resources (FHIR®) standards development is expanding to improve access to clinical and claim related data for all trading partners and in healthcare. The payer community is leading efforts to use FHIR to solve access, security and identity issues to maximize interoperability across the industry. Several multi-stakeholder initiatives formed to accelerate how FHIR can best be used to unlock data and make it readily available at the point of care to improve outcomes and remove time burdens for stakeholders. Two initiatives leveraging HL7 FHIR transports are, ONC FAST (FHIR AT SALE TASKFORCE) and the HL7 Da Vinci Project. Through this, consensus-based effort, these initiatives are creating essential use cases, guidelines, and implementation guides with the goal of removing barriers to FHIR scalability. This panel will discuss key components considered and being addressed, learnings, solutions/tools developed, how these initiatives coordinate, next steps and ways organizations and individuals can engage to help transform health data exchange.	<p>Moderator: Didi Davis VP, Informatics, Conformance & Interoperability The Sequoia Project</p> <p>Panelists: Paul Oates, FHIMSS (Da Vinci & FAST) Senior Enterprise Architect, Cigna</p> <p>Rich Cullen (Da Vinci) Vice President, Inter-Plan Solutions, Blue Cross Blue Shield Association</p> <p>Nancy Beavin (Da Vinci) Director, Product Delivery Humana</p>	<p>Please register for Multi-stakeholder FHIR Initiatives Accelerate Adoption: Advancing Data Interoperability on Mar 18, 2020 4:00 PM EDT at:</p> <p>https://attendee.gotowebinar.com/register/1262984123506635789</p> <p>After registering, you will receive a confirmation email containing information about joining the webinar.</p> <p>Brought to you by GoToWebinar® Webinars Made Easy®</p>
