StatusRequest

Owning committee name
Financial Management

Contributing or Reviewing Work Groups
- Claims with Attachments
- Patient Administration

FHIR Resource Development Project Insight ID
994

Scope of coverage
The StatusRequest resource indicates the resource for which the processing status is requested and provides supporting information for the status request.

RIM scope
New

Resource appropriateness
This is a formal request, for Payors which require such and/or transports which don't support a 'Get Operation', for the processing status of a previously submitted processing request.

Expected implementations
This is a key resource expected by most Healthcare billing implementations where Health care products and services are provided.

Content sources
Existing normative V3 and V2 specifications, Canadian Specifications, X12

Example Scenarios

Resource Relationships
Refers to a Claim resource or a Reconciliation. Is referred to by a StatusResponse.

Timelines
Ready for DSTU 2

gForge Users
paulknapp

Issues
It has been suggested that Operations() may be used to fulfill the business needs for this resource, at least for REST implementations, this will be explored.
