

DoF 2018-10-24 Weekly Meeting

Agenda

Status report for Implementation Guide Projects

- Changes in IG tooling

Personal Health Device Implementation Guide for January Ballot - Review Notice of Intent to Ballot (Rosner)

Attendance

Stefan Karl
Brian Reinhold
George Dixon
Beth Pumo
John Rhoads (presiding co-chair, notes)
Martin Rosner
Paul Schluter

Notes

Brian is using 'in-progress' Implementation Guide Tool (see Zulip stream). He notes that:

- StructureDefinition content has changed: package field has become grouping + grouping ID
- be careful of harmful material you might have left over in your cache
- current problem with output directory location of artifacts

Current state of PHD: essentially complete except for CapabilityStatement

Stefan: since PoCD IG has a usable IG now, new IG development can afford to wait a bit until IG tool ecosystem stabilizes.

Other things to note:

"Using MDC page" is now in the build for the FHIR R4 specification

Next step on MDC is machine-readable resources on canonical URLs

Vote on issuing Notice of Intent to Ballot - Personal Health Device Implementation Guide

- Moved/seconded/for-against-abstain: Rosner/Reinhold 5-0-0

Action Items:

1. Submit NIB via HL7 website (Rhoads)
2. Find out what FHIR Ballot Process item "Oct. 31 Final posting" exactly means and fulfill it (Rosner and Rhoads)
