Mission

The Version 2 Management Group provides day-to-day oversight of the processes and products related to Version 2 throughout their lifecycle. This includes ensuring Version 2 product quality, setting product strategy, monitoring scope and consistency in accordance with Standards Governance Board (SGB) principles and aiding in the resolution of Version 2 related intra and inter-work group issues.

Charter

Objectives

The Version 2 Management Group will focus its energy on enabling and ensuring the following:

- Conformance, Vocabulary and Infrastructure and Message (InM) work together with the management group to develop quality criteria for the Version 2 products
- Version 2 development is coordinated and consistent across the organization and of high quality
- Work groups receive timely feedback and guidance on Version 2 products
- Work group development of Version 2 products are aligned with the broader goals of HL7 and its constituent communities
- Work groups act in a coordinated manner with quick resolution of Version 2 related disputes
- Work groups understand what is expected of them and have access to the skills and tools necessary to perform their domain specific Version 2 related work
- Known Version 2 risks are recorded, managed, and reviewed regularly per the SGB precept on vitality assessment.
