

# DoF 2018-11-15 Weekly Meeting

## Agenda

Demo by Michael Faughn of building a device model with IEEE 11073-10201 Domain Information Model based Prometheus Domain Profile editor

## Attendance

Beth Pumo

Stefan Karl

Brian Reinhold

Ana Kostadinovska

Koichiro Matsumoto

Steven Dain

Paul Schluter

John Rhoads (notes)

## Notes

Best to start with a simple hand-built XML file in Rosetta format

You may encounter server time-out with larger models; do not worry about data loss, server processes continuously and the data will persist in spite of the interface time-out
