

DoF 2018-01-03 Weekly Meeting

Participants

Todd Cooper
John Dyer
Ken Fuchs
Stefan Karl
Ana Kostadinovska
Koichiro Matsumoto
Joerg-Uwe Meyer
Ali Nakoulima
Joe Quinn
Brian Reinhold
John Rhoads
Martin Rosner
Paul Schluter

Discussion

- 1. Discussion / review of the DoF (PoCD & PHD) IG's out for ballot**
 - Todd provided a general update of the "challenges" of getting the Simplifier-based IGs into the ballot
 - Thanks to Furore & Michel especially for working overtime to work through the process with Grahame and the FMG
 - **EVERYONE SHOULD REVIEW AND PROVIDE COMMENTS!!**
 - IF you cannot officially submit ballot comments, then send them to the DEV WG co-chairs
 - PHD IG: Eric Hass already provided comments ... major complaints regarding coding system links and other identifiers; Brian was surprised and puzzled by them; Rhoads and Stefan echoed some of the concerns and challenges
 - Will resolve in NOLA ...
 - **ACTION:** @ Wednesday January 24 focus on triage of submitted comments to classify, prioritize, and get an initial response / assessment
- 2. Identification of topics to discuss in preparation for the NOLA meetings later this month**
 - Ballot Comment Resolution
 - **ACTION** (Rhoads) Verify Joint with OO - in main Dialysis / IVD discussion ... not joint joint joint session reportout with other WGs
- 3. Key Pre-NOLA Wednesday Discussions should include:**
 - Harmonization of PoCD & PHD FHIR Resource model usage (mapping from DIM)
 - Observation Vital Signs Profile Updates to support early non-aligned reporting (e.g., from a simple gateway - PHG)
 - "MDC11073" Page
- 4. HL7 CAT & IHE PAT Updates + 2017 DoF events under consideration**
 - IHE NA PAT 2018 is scheduled for this January 16 & 17 (Tuesday & Wednesday) in Cleveland in conjunction with the IHE North American Connectathon 2018
 - Similar to / builds upon 2017 DevDays hands-on learning / testing experience
 - Approx. 15 signed up for the event at this point!
 - FHIR DoF CAT planned for NOLA (Saturday & Sunday) - but TBD depending on number of participants;
 - On this call, only John Rhoads and Todd Cooper indicated plans to attend; Brian was a "maybe to doubtful"
 - 2018 June - U.S. DevDays - in Boston will include a DoF component
 - 2018 August - (TBD) DoF PAT in Korea
 - 2018 November - Amsterdam DevDays to include a DoF component as in 2017's event
- 5. DoF Weekly Call Time Change Proposal**
 - **PROPOSAL:** I would like us to consider pushing out the meeting time to 06:30 Pacific (30 minutes later) - this WAS one of the few work-related thoughts that crossed my brain during the holiday. We could combine it with the subsequent DEV WG weekly meeting and simply plan on a 90 minute session between the two - this is what often happens any way. It will be a bit later in Asia (Korea & Japan) - sorry about that - and shouldn't be a problem in Europe.
 - **DECISION:** Push out DoF call to start 30 minutes later @ 06:30 A.M. Pacific; Will be combined with the DEV WG weekly call for a 90 minute session; this will start next week January 10th.

Next Meetings

[2018.01.10](#) Agenda is on the topics in (3) above

[2018.01.17](#) **CANCELLED** due to IHE NA PAT 18 in Cleveland

[2018.01.24](#) Agenda is on ballot comment triage and prioritization + NOLA agenda review / time allocation
