4th Wednesday of each month  4:00-5:30 PM (easter n)	Da Vinci Community Roundtable	<p>The goal of the new <b>Community Roundtable</b> is to increase public awareness among payers, providers and vendors of the resources and progress coming out of Da Vinci's efforts.</p> <p>The <b>90-minute virtual sessions</b>, which will be open to members and the public, will highlight how members leverage the <b>Da Vinci use cases and IGs in action in workflow</b>.</p> <p>Typically, two or three organizations will showcase their work and answer audience questions, allowing for a vibrant discussion and fostering industry understanding of the Da Vinci work products and resulting market solutions. Sessions are anticipated to be recorded and available online for viewing after the event.</p>	<p><b>July 22, 2020 Community Roundtable:</b></p> <p>Cigna, InterSystems, Rush Health</p> <ul style="list-style-type: none"> <li>• Cigna</li> <li>• InterSystems</li> </ul>	<p><b>Coming soon:</b> July registration link</p> <p><b>July 22nd Session Details:</b></p> <p><b>What It Takes: How to Leverage the HL7 Da Vinci Project to Drive Quality Measurement and Value-Based Care</b></p> <p>As the shift to value-based care continues, the need for payer-provider collaboration has become essential. Founded in 2018, HL7® Da Vinci Project leverages the combined power of FHIR®, subject matter experts, and leading providers, payers, and vendors to improve the overall flow of clinical data between payers and providers. Hear from the Da Vinci program lead who will provide an overview of the status, maturity, and resources available and emerging implementations. Then Da Vinci participants Cigna, InterSystems and Rush will take a deeper dive into the clinical quality measure use case to describe how they formed their project, implemented the technical requirements and how this project holds promise to reduce the burden and increase the scale of data exchange for value-based care.</p>

Wed 4:00-5:00 PM	Multi-stakeholder FHIR Initiatives Accelerate Adoption: Advancing Data Interoperability	Join us to learn how HL7 Fast Healthcare Interoperability Resources (FHIR®) standards development is expanding to improve access to clinical and claim related data for all trading partners and in healthcare. The payer community is leading efforts to use FHIR to solve access, security and identity issues to maximize interoperability across the industry. Several multi-stakeholder initiatives formed to accelerate how FHIR can best be used to unlock data and make it readily available at the point of care to improve outcomes and remove time burdens for stakeholders. Two initiatives leveraging HL7 FHIR transports are, ONC FAST (FHIR AT SALE TASKFORCE) and the HL7 Da Vinci Project. Through this, consensus-based effort, these initiatives are creating essential use cases, guidelines, and implementation guides with the goal of removing barriers to FHIR scalability. This panel will discuss key components considered and being addressed, learnings, solutions/tools developed, how these initiatives coordinate, next steps and ways organizations and individuals can engage to help transform health data exchange.	Moderator: Didi Davis VP, Informatics, Conformance & Interoperability The Sequoia Project  Panelists: Paul Oates, FHIMSS (Da Vinci & FAST) Senior Enterprise Architect, Cigna  Rich Cullen (Da Vinci) Vice President, Inter-Plan Solutions, Blue Cross Blue Shield Association  Nancy Beavin (Da Vinci) Director, Product Delivery Humana	Please register for Multi-stakeholder FHIR Initiatives Accelerate Adoption: Advancing Data Interoperability on Mar 18, 2020 4:00 PM EDT at:  <a href="https://attendee.gotowebinar.com/register/1262984123506635789">https://attendee.gotowebinar.com/register/1262984123506635789</a>  After registering, you will receive a confirmation email containing information about joining the webinar.
