Management	Review ANSI Anti-Trust Policy	 <p>The slide titled "Antitrust Policy" contains the following text:</p> <p>ANSI Antitrust Policy</p> <p>ANSI has a long-standing commitment to fair competition and to the health of the marketplace. This commitment is reflected in the ANSI Code of Ethics, which prohibits members from engaging in anticompetitive practices, such as price fixing, bid rigging, and other forms of collusion. ANSI also has a strict policy against self-dealing and conflicts of interest.</p> <p>ANSI recognizes the importance of fair competition in the marketplace and the role of the industry in promoting the health of the marketplace. ANSI is committed to working with its members and the public to ensure that the marketplace remains fair and competitive.</p> <p>Approved by the ANSI Board of Directors May 12, 2014</p>	
	Milestones	<ul style="list-style-type: none"> Mitre will be developing Reference Implementation Gevity/ Lloyd McKenzie will be lead to author Implementation Guide Da Vinci Connectathon in Jacksonville, FL - May 29-30 - May Onsite Connectathon - Guidewell Early ballot cycle schedule <ul style="list-style-type: none"> NIB - May 19 Sign up for ballot opens - May 21 Initial content due - May 19 QA period - June 6 Final Content due - June 17 Ballot opens - June 21 Ballot closes - July 21 There's a possibility that we may push this IG to the September ballot instead of the early ballot cycle - we'll know more over the next couple of weeks 	
	Survey update	<ul style="list-style-type: none"> Received 6 surveys back re: Prior Auth volume Will review on next call once summary pulled together Some states have mandated 48 hour turn-around times - this will vary significantly <ul style="list-style-type: none"> MA, OH, MN(?) Peter Muir chat comment - Prior Auth State Law chart: https://www.ama-assn.org/sites/ama-assn.org/files/corp/media-browser/public/arc-public/pa-state-chart.pdf John Kelly chat comment - Looks like there are 25 States with rules that require payer response (approved/denied) within 1-3 days (sometimes business days) 	

	Mapping update	<ul style="list-style-type: none"> Reviewed X12 278 loops/ segments - landing on the ones that need to be supported There are a couple more that need to be supported <ul style="list-style-type: none"> Robert Dieterle will provide info to Jean Duteauby end of day Attestation vs. structured data <ul style="list-style-type: none"> There's something in between documented specific values for a lab test for example vs. a condition exists and there's accompanying information From a commercial payer point of view, if only the ones with a specific diagnosis could be fully automated then most wouldn't be automated Tell me what's going on with the patient, and then let the payer rules engine make a determine based on that - this would support many real-time use cases If it can be done in a questionnaire, great - it can also be done by accessing R4 US Core profiles on supported resources X12 will make a common mapping available Not available via HL7 Entire bundle of FHIR resources, including Prior Authorization profile on top of Claims, as well as Da Vinci Coverage resource - base 64 encode it, and send the entire bundle via 275 BIN segment <ul style="list-style-type: none"> Embed FHIR into CDA unstructured section? No - MIME type that allows for XML or JSON - this would require revision to CDA Provider should be able to send 275 with CDA or FHIR bundle - Robert Dieterle talking to Division of National Standards Technology between payers and providers already exists, but X12 278 is not widely adopted What we're doing is compliant with current regulation and anticipated attachments rule <ul style="list-style-type: none"> This could be implemented a different way, but wouldn't be consistent with current regulations Da Vinci mapping will be done and then passed to X12 X12 gave specific project members permission to use TR3 to do the mapping, we're not able to discuss on the weekly conference call 	
	WEDI Presentation	<ul style="list-style-type: none"> Reviewed Prior Authorization presentation done at WEDI Robert Dieterle will ask WEDI if ok to post 	
	Next agenda	Next week's call is cancelled due to Da Vinci Connectathon and Working Sessions taking place in Jacksonville, FL May 29-31
