

# Project Proposals Home

When drafting a Project Proposal note that Confluence acts as an initial landing place but Jira handles the actual creation /editing of the proposal. The below links are from Jira.

**In order to submit your draft you must go to Jira and click on the "Submit" button.**

For more information on the Project Proposal process, see: [How to Create and Review a Project Proposal](#)

This is not necessary for new releases of previously published standards or for reaffirmation, re-circulation or withdrawal ballots.

For any questions, please email [webmaster@hl7.org](mailto:webmaster@hl7.org).
