	Workflow Review (Anupam Goel)	<ul style="list-style-type: none"> • Question: different payers require a 'wet' signature (and not an electronic signature), which requires printing documentation and would be a barrier to a fully electronic process <ul style="list-style-type: none"> • Viet Nguyen to follow up with Robert Dieterle • Narcotic control needs 2 factor authentication in the EHR - possibly could work towards eliminating the wet signature
