

2020-05-28 MiHIN InterOpathon Virtual

Event Information

May 28, 2020 - May 29, 2020

Registration cost: \$25

We are excited to share that the [Michigan Health Information Network Shared Services \(MiHIN\) InterOpathon](#) on **May 28 & 29, 2020 is moving VIRTUAL!** We're thrilled to continue our collaboration with MiHIN and hope you can join us!

If you are interested in being part of this event too, you can [REGISTER TODAY](#) and there are also [SPONSORSHIP OPPORTUNITIES](#) available.

The 2020 Virtual InterOpathon will be focused on understanding how organizations can translate interoperability standards into real-world solutions. This collaborative event will encourage teams to build solutions to advance use cases within Health Level Seven® (HL7®) Fast Healthcare Interoperability Resources (FHIR®) Accelerator Programs (CARIN, Da Vinci and SIREN/Gravity Project), and participating teams will have access to a robust synthetic healthcare ecosystem called Interoperability Land™, open Application Programming Interfaces (APIs), as well as the myriad of partner provided APIs and cloud services exposed by our sponsors to the teams.

The InterOpathon promotes and encourages multi-organizational team building, knowledge sharing, and collaboration, and will be to help organizations prepare for the final rules from the Centers for Medicare and Medicaid Services (CMS) and the Office of the National Coordinator for Health Information Technology (ONC).

Questions? Contact events@interoperabilityinstitute.org.

Submitting WG: Patient Care, Public Health

Justification and Objectives: For details on the approved scope for the Gravity Project SDOH Data Element FHIR IG, read the [HL7 PSS](#).

Clinical input requested (if any):

TBD
