49. Description	The purpose of this implementation guide is to provide a HL7 CDA-based set of templates defining a standardized document that can be used to convey supporting clinical documentation from a dental provider to a payer (e.g., insurance company) to substantiate a claim for orthodontic care.
Targets	<p>Targets</p> <p>These are categories of potential users, implementers, or other interested parties such as those that are indicated on the Project Scope Statement under “Stakeholders/Vendors/Providers”. Select those that are applicable, or suggest others:</p>
50. Stakeholders	Payors
51. Vendors	EHR, PHR
52. Providers	Healthcare Institutions (hospitals, long term care, home care, mental health)
53. Benefits	This guide meets the business need that the American Dental Association and dental providers have for a computable electronic orthodontic attachment to supplement the existing STU for the periodontal attachment. The document template in this guide allows payers to improve automation of processing of attachments provided to substantiate claims.
54. Implementations/Case Studies	<p>Anticipated implementers include:</p> <ol style="list-style-type: none"> 1) US Department of Defense 2) State Medicaid Programs - Arkansas, Illinois, Massachusetts, Washington <p>This guide was developed with the sponsorship of the American Dental Association, and the US Department of Defense.</p>
55. Development Background	This standard is closely related to the content in the HL7 CDA® R2 Periodontal Attachment Implementation Guide: Exchange of C-CDA Based Documents, Release 1 - US Realm; published on July 20, 2017.
