Mailing List Instructions

1. Go to the HL7 home page ([[1]])
2. Select "Resources", then "Listservs"
3. Click on "Subscribe to list services" on the right-hand-side
4. Fill out the fields at the top (all mandatory). The email you specify will be where the listserv will send posts
5. Select the lists you want to subscribe to. There's 2:
   a. Fast Health Interoperability Resources (FHIR(R)) - This is the one you want: public email list for general discussions
   b. FHIR SVN discussions - this is only for the editors to talk about managing the dev process
6. Scroll down to the bottom, attempt to prove you're a real human and promise not to send spam, then click "Request Subscriptions"

Note: All participation in the FHIR community is subject to the Community Participation Rules: FHIR Code of Conduct and the FHIR Intellectual Property Rules. Also note: FHIR Rules for asking questions.
