**StatusRequest**

**Owning committee name**

Financial Management

**Contributing or Reviewing Work Groups**

- Claims with Attachments
- Patient Administration

**FHIR Resource Development Project Insight ID**

994

**Scope of coverage**

The StatusRequest resource indicates the resource for which the processing status is requested and provides supporting information for the status request.

**RIM scope**

New

**Resource appropriateness**

This is a formal request, for Payors which require such and/or transports which don't support a 'Get Operation', for the processing status of a previously submitted processing request.

**Expected implementations**

This is a key resource expected by most Healthcare billing implementations where Health care products and services are provided.

**Content sources**

Existing normative V3 and V2 specifications, Canadian Specifications, X12

**Example Scenarios**

**Resource Relationships**

Refs to a Claim resource or a Reconciliation. Is referred to by a StatusResponse.

**Timelines**

Ready for DSTU 2

**gForge Users**

paulknapp

**Issues**

It has been suggested that Operations() may be used to fulfill the business needs for this resource, at least for REST implementations, this will be explored.
