2.a. Project Scope

V2 Errata - Addenda - technical corrections.
Currently we have Errata, addenda, technical corrections. E.G.

- HL7 Version 2.4 Specification Errata
- HL7 Version 2.4 Specification Technical Correction: P03 and P11 Trigger Events

This project will combine/align/update/fix so that there is a single document describing corrections/deficiencies for each version.

2.b. Project Need

As a customer I would be miffed if I searched for and downloaded the " HL7 Version 2.4 Specification Errata"
and later found out that there were two technical corrections as well as HL7 Version 2.4 Messaging Addenda that were separate.
This projects to the customer that HL7 does not have a consistent way to handle the discovered issues.
