

# 2020-06-10 Wednesday DoF Agenda and Minutes

## Agenda

Topic of Device Alerts being treated in Monday meetings

- Content also being reflected in [DoF: Alerting](#) Confluence Page in the Project Gemini [Device Interoperability using SDPI+FHIR](#) pages
- A resource reflecting the information about the reception and response from the target notification device is likely also needing to be defined

Another topic: alternatives to the standard RESTful FHIR server interaction paradigm that may be needed to support performance and reliability of data flow

- FHIR Subscription (Brian, can you talk about your experience with this?)
- FHIR Messaging

Other business

## Attendance

Koichiro Matsumoto, Adilia Morales, Chris Courville, Todd Cooper, John Garguilo, Dan Netto, John Dyer, Peter Muir

## Meeting Notes
