

How to Create a Blog Post

 Don't forget, you can watch blogs just like pages to receive notifications on changes/updates!
More on [Adjusting Notifications](#) from Confluence

Step-by-step guide

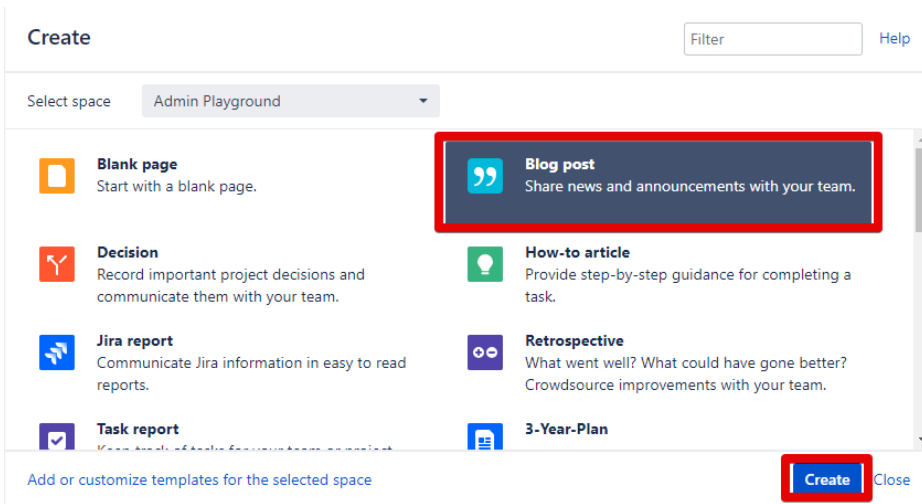

1. Navigate to the space you'd like to create a new blog in
2. Select "Blog" from the left sidebar

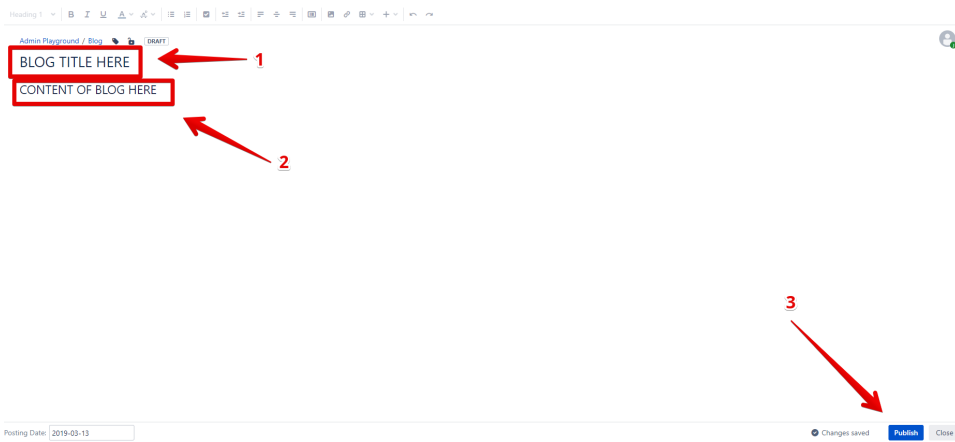

3. Select the ellipsis at center top next to "Create"

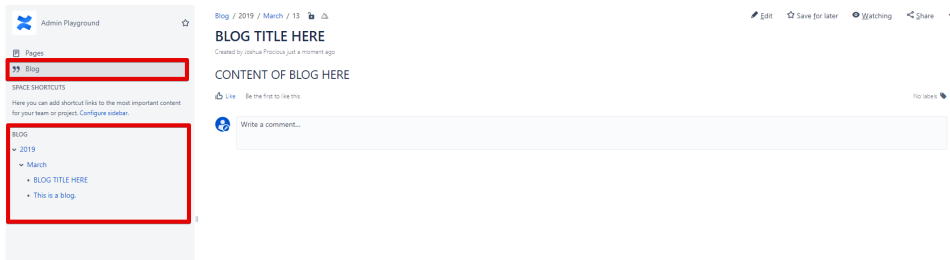

4. Select "Blog Post" and then "Create"

5. Enter the blog title, blog content, and then select "Publish"

6. While in the Blog section of the space, Blogs display just like pages!

7. To return to the Space Homepage select the space name at top left.
