- [Next meeting](#)

Outstanding Action Item List

- no discussion

Pharmacy List Topic

- Inclusion of PractitionerRole
 - The FMG discussed the inclusion of PractitionerRole in a number of attributes on their call yesterday afternoon. Pharmacy has a number of attributes that include a reference to Practitioner where FMG believes should also include a reference to PractitionerRole. The inclusion of PractitionerRole would allow you to specific "John Doe (Pharmacist) acting on behalf of Pharmacy ABC" or "Pharmacist acting on behalf of Pharmacy ABC". We will be reviewing the following attributes on our call on Monday to determine if PractitionerRole should be included.

Pharm	MedicationDispense.receiver
Pharm	MedicationDispense.substitution.responsibleParty
Pharm	MedicationRequest.recorder

Pharm	MedicationRequest.reported[x]
Pharm	MedicationStatement.informationSource

- If Pharmacy does not respond to FMG by November 28th, PractitionerRole will be added into these elements as a pre-approved technical correction. It was felt that doing this would have the least negative impact on the implementer community.

- Discussion:

Pharm	MedicationDispense.receiver	Understand the use case, but not sure this is part of 80%
Pharm	MedicationDispense.substitution.responsibleParty	In NZ include practitionerRole - agree it should be added
Pharm	MedicationRequest.recorder	Agree it should be added
Pharm	MedicationRequest.reported[x]	Agree it should be added
Pharm	MedicationStatement.informationSource	Agree it should be added

- Motion: Do not add to MedicationDispense.receiver - John/Jean - 4-1-0 - Carried
- Motion: Add to the other attributes (MedicationDispense.substitution.responsibleParty; MedicationRequest.recorder; MedicationRequest.reported[x]; MedicationStatement.informationSource - John/Jean - 5-0-0 - Carried

- Melva Peters - add tracker item to Review with implementers - MedicationDispense.receiver

Pharmacist Care Plan: PSS Update and Ballot Reconciliation

[Zabrina Gonzaga](#) presenting ballot reconciliation and revised PSS

- [CDAR2_IG_CCCA_MTM_CAREPLAN_R1_O1_2017SEP_Discussion Nov 2018s.xls](#)
- [Revised Pharmacist Care Plan HL7 Project Scope Statement 2018-11-14.docx](#)
- Zabrina reviewed the PSS - Project 1232
 - Pharmacy is a co-sponsor
 - PSS has been updated - will be reviewed with SDWG this week
 - Plan to go to ballot in May 2019
 - CDA Implementation Guide - was for comment only ballot - will be balloted as STU
 - will include value sets from HIT Collaborative
 - question about the process to move early adopters to move over to new STU version
 - Will not publish for comment only ballot
 - Communication plan
 - Need to have FMG approval - this includes a FHIR Profile
 - [Zabrina Gonzaga](#) will confirm if there was a separate project for the FHIR profile
 - This PSS should be updated to be clearer
- Ballot Reconciliation of Comment only
 - about 240 comments - have been voted on through SDWG
 - Comment 111 - Health Concern Act - suggestion that SHALL contain an Allergy-Intolerance Observation
 - will update description
 - Will be re-voted on in SDWG
 - Comment 117 -
 - Comment 143 -

FHIR

Medication Knowledge Resource (GF #16095)

- Report from meeting November 16th

Gforge Trackers - [Link to Gforge Tracker](#)

Triaged Trackers

- [19365](#) - Work on definition for Active Medication List
- [19363](#) - Where should medication names be represented
- [19344](#) - Consider moving MedicationRequest.priority to Dosage or Timing
- [19333](#) - Add basedOn with a reference to ProcedureRequest to MedicationDispense
- [17222](#) - Support for Medical Gases
- [15509](#) - Example scenarios
 - Waiting for direction from Workflow
