## Project Approval Request

Choices	Your Vote	Current Result: (9 Total Votes)	Comments
abstain		0 Votes , 0%	<b>affirmative:</b> There are inconsistency between the title of this project (FHIR IG for data exchange for QI) and the project scope statements (Section 3a - the scope statements appear to go beyond the scope of query/requesting and exchange of data). The scope seems to preempt among others, e.g. the medication reconciliation process, creation of reconciled medication list; processes in reporting and resolution of gaps in care Suggest that either revise/expand the project title, or revise (constraint) the scope statements to reflect the title
affirmative		9 Votes , 100%	
negative (with comments)		0 Votes , 0%
