Overview

CodeX's **mCODE Community of Practice (CoP)** is a group of health systems and other CodeX members working together within the CodeX HL7 FHIR Accelerator.

The goal of the CoP is to facilitate implementation of [mCODE – the minimal Common Oncology Data Elements](#) and extensions into production Electronic Health Record systems and other systems. Think of the CoP as an early-phase use case centered around basic collection and sharing of mCODE-based data. The collaborative work of this group will ultimately improve cancer care and research across a range of future use cases developed in CodeX and elsewhere.

Monthly Meetings

Visit our Community of Practice [Monthly Meeting Minutes page](#) to learn more about our upcoming Community of Practice monthly meetings and view resources from previous monthly meetings.

(see also [Community of Practice participants](#))

If you would like to receive notices about future CoP monthly calls and events, please join our CoP mailing list:

Join a CodeX Listserv

Member Involvement

Joining the Community of Practice is **free and open to all interested parties**. An impressive set of [organizations have joined past Community calls](#). Via the Community of Practice, members can expect to:

- Stay apprised of the latest developments for mCODE, CodeX, and cancer data exchange
- Develop and share best practices for clinical workflows, data modeling, and exchange
- Have a venue to ask questions and learn from the experience of other community members

To join the conversation, use any of the following channels:

- Attend one of our monthly meetings (details [found here](#))
- Email the community listserv: codex-cop@lists.hl7.org
- Join us on [Zulip](#)

Member Activities

The Community of Practice fosters the conversation around cancer data and mCODE implementation through:

- A monthly conference call where community leaders present updates on mCODE and CodeX. Community participants are invited to present on topics of interest to the community
- This community web page where members can review previous calls and minutes, reach out to fellow community members, hold discussions, and more

- A periodic newsletter that summarizes the latest developments and highlights where community members can go to get more information

Key Community Leaders

<i>Role</i>	<i>Name</i>	<i>Organization</i>	<i>Email</i>
Community Leader	TBD		
Community Support Lead	Anthony DiDonato	The MITRE Corporation	adidonato@mitre.org
Community Support	Zeshan Rajput	The MITRE Corporation	zrajput@mitre.org
Community Support	Rob Dingwell	The MITRE Corporation	bobd@mitre.org
