

Working document: Defining the respective roles of each organisation in the consortium

- Step 1: Everyone adds points individually to its own section in the working document (categorized)
- Step 2: Harmonize categories and map our individual points into one scheme
- Step 3: For each category: discussion and (if needed) negotiations on overlapping points
 - Ideally there is a clear scope/responsibility of all of our orgs in the end
- Step 4: Approval of categories, responsibilities and boundaries
- Step 5: Translating the result into a narrative

Table of contents

- [IHE \(individual points\) 2](#)
- [HL7 \(individual points\) 3](#)
- [HIMSS \(individual points\) 4](#)
- [Harmonized categories and responsibilities 5](#)

IHE (individual points)

Profiling		
	Harmonizing and profiling of eHealth use-cases	
Product testing		
	IHE Connectathons	Goal: testing of prototype/product for getting it market-ready
	Conformity assessment	Independent conformity testing for final product for market
	Plugathons	For startups, experimental
Deployment		
	Consultancy on UC and IS development (IHE Services)	Consultancy of national programs to develop use-case definitions/ordering and Interoperability specifications
	Projectathon, Testing	Interoperability testing tailored to national specifications
Education		
	Webinar series	
	Certification program scoped on IHE profiles and methodology	
Collaborations		
	Gemini (with HL7)	

HL7 (individual points)

Standards Development		
	FHIR	
Community building		
	FHIR community	

Testing		
	FHIR Connectathon	Goal: Teach, Learn, Share, Development
	FHIR DevDays	Goal: Teach, Learn, Share, Development
Education		
	Certification program scoped on HL7	
Collaborations		
	Gemini (with IHE)	

HIMSS (individual points)

Communications		
	Global events	
	HIMSS Media	
Maturity models		
	EMRAM	
	Interoperability Measurement Framework	
Education		
	CPHIMSS - Professional Certification	
	Bootcamps, virtual training, HIMSSTV	
Collaborations		
	EHRA - Access to large vendor community	
	HIMSS Communities and Roundtables	
	Local Chapters	
Testing		
	Immunization Integration Program (IIP) recognized by ONC, with CDC	
Deployments		
	Interoperability Showcase	

Harmonized categories and responsibilities

tbd - this will be assembled with from the individual content
