

Conformance

Common Discussion Items

- Separated v2 Conformance Methodology Specification
- v2 Data Type Flavors
- HL7 v2+
- FHIR Conformance

Need to report an issue on a conformance specification? Go to JIRA (<https://jira.hl7.org/secure/Dashboard.jspa>) and select the "Create" button, and then select the "V2 Specification Feedback", the specific specification and section. You can also ask a question by selecting the "General Project Issues".

Conformance migrated in October 2018 from [HL7 Wiki](#) to here on Confluence.

Weekly Meeting Information

Day: Every Tuesday
Time: 10:00am North American Eastern Time (New York, GMT-04:00)
Phone Number: +1 515-739-1227
Pass Code: 732544
Web Meeting: [Free Conference Call](#)

About us

Conformance is responsible for supporting all conformance activities of users of HL7 standards, including:

- Profiling (e.g. localization) of HL7 standards to suit specific real-world situations
- Creation of implementation guides
- Mechanism to specify, interpret, and test conformance

Co-chairs

Frank Oemig	Robert Snelick	Ioana Singureanu	Nathan Bunker
