[Outstanding Action Item List](#)

Out of Cycle Meeting - Joint ISO/Pharmacy

- March 30 - April 3 - Washington
- Ask Christian if it could be done as a video conference instead of F2F
- Ask about specific agenda topics
- Scott will be in attendance because he is in attendance for ISO meeting
- Will propose some specific topics

Catalogue Project

- January 20, 2020
 - primary focus is on lab at this time
 - Reviewed Catalog FHIR IG on Jan 17 conference call
 - There will be areas in the Catalog IG that Pharmacy will contribute to
 - Suggest setting up a time to have Catalog meet with Pharmacy on one of our conf calls
 - Discussing a For Comment ballot of this IG, possibly in May, 2020

Updates from Workflow

- January 20, 2020
 - dealing with tracker items.
 - Workflow is cancelling the WGM workflow meeting
 - There were no discussions on today's Workflow call
 - Workflow meetings will be cancelled for Jan 27, Feb 3 and Feb 10.
 - Next Workflow Meeting is Feb 17, 2020

Healthcare Product

- January 20, 2020
 - based in O&O with many groups participating
 - Early work set boundaries
 - updating definitions to defining when different resources should be used
 - establishing "patterns"
 - Last meeting was on Dec 16th from my minutes. During the meeting the following topics were discussed:
 - Blood Administration and how to model it: the suggestions were to either create a new resource or to use a profile on Procedure or Medication Administration
 - Meeting to be setup with OO, RX and PC to discuss this topic
 - Another discussion was whether we should create a "pattern" and assure that similar resources are all modeling the same type of requirements the same way
 - Last topic discussed was how to update documentation to guide users of the FHIR resources when to use Device, Device Definition and Medication - specifically for a pharmacy use case, where the device may include a medication.
 - Meeting on January 20 -

NCPDP Updates

- January 20, 2020
 - Pharmacist eCarePlan
 - no publication request (per Jean D skype) ... yet
 - will reach out to Shelly to get status Scott M. Robertson
 - Specialty Prescribing PSS update
 - need to be able to send associated clinical information
 - reviewed spreadsheet with clinical information needed
 - question if this should live in (be sponsored by) Pharmacy, Orders (since these are a lot of observations), or even PatientCare
 - needs discussion with all co-chairs
 - targeting for Sept ballot
- January 13, 2020
 - Pharmacist eCare Plan is getting the Publication Request ready - vote at next conference call
 - ePrescribing Specialty task group is meeting on the 14th
 - White Paper task group is starting to meet
 - New project statement to look at using the current Pharmacist Care Plan to submit a Comprehensive Medication Review summary. Can we use FHIR to help with this form?

V2-FHIR Mapping

- January 20, 2020 -
- January 13, 2020 - Review is still in-progress

Sydney WGM

- [draft agenda posted](#)
- looking for agenda topics

Projects

- Real Time Pharmacy Benefit Check -
 - January 20, 2020
 - in ballot, responding to issues
 - January 13, 2020 - no update

Medication List

- [Patient Medication List Guidance](#)
- Use of MedicationStatement/Usage
- January 20, 2020 - limited progress

DaVinci PDeX Formulary Project

- January 13, 2020 - Email sent to Saul and Dave telling them they can make this change without balloting
 - Need to double-check that TSC approved the publication request
- Discussion - would have to do a re-build of the IG publication
 - new IG changes the URLs of the extensions - anyone who has implemented would need to make a change to their implementation
 - would need to let implementers know
 - Jean will reach out to Lloyd to see about the rules for this type of change
 - Lloyd - yes this change can be made without ballot
 - still follow up items
 - other issues
 - publication request

FHIR

Trackers - [link to pharmacy unresolved Jira trackers](#)

[FHIR-24099](#) - Getting issue details...

- Need to break this into separate trackers to address definitions for each resource
- First to break out is Medication Administration

[FHIR-25538](#) - Getting issue details...

- Created as clone of [FHIR-24099](#) Review and update definitions of pharmacy resources
- This tracker is specific to MedicationAdministration
- reviewed and revised Scope and Usage

This resource covers the administration of all medications and vaccines. Please refer to the [Immunization](#) Resource/Profile for the treatment of vaccines. It will principally be used within care settings (including inpatient) to record ~~the capture of~~ medication administrations, including self-administrations of oral medications, injections, intra-venous infusions adjustments, etc. It can also be used in outpatient settings to record allergy shots and other non-immunization administrations. In some cases, it might be used for home-health reporting, such as recording self-administered or even device-administered insulin.

Note: devices coated with a medication (e.g. heparin) are not typically recorded as a medication administration. However, medications administered via an implanted medication pump (e.g., insulin) would be recorded as a MedicationAdministration.

Next meeting

- January 27, 2020 - skip
- February 3, 2020 - cancelled - WGM meeting
- February 10, 2020 - usually skip week after WGM
- **February 17, 2020**
 - PSS submitted by February 21 for Sept ballot

Action Items

- Scott M. Robertson follow up with Shelly on status of publication request for eCare Plan
