Minutes

Catalog Updates (John Hatem)

- October 19, 2020
 - working on ballot reconciliation
- October 5, 2020 - Discussion with Catalogue Project Team
 - [20201005_Pharmacy_WG_catalogs.pptx](#)
 - FHIR IG Project
 - see slide deck for more information
 - Pharmacy is a co-sponsor for this project
 - Guidance for implementing catalogues
 - laboratory services - PlanDefinition
 - drugs - MedicationKnowledge
 - devices - DeviceDefinition
 - Order sets - PlanDefinition
 - Balloted in September as STU - lab content only - passed
 - working on ballot reconciliation
 - Tested in last 2 connectathons on lab content
 - lab service is like a plan of activity - supported by PlanDefinition
 - also uses other resources - use PlanDefinition to connect these resources
 - so far, the scope has been for use by practitioners, may need to be updated when we start with medications
 - for lab it is practitioners
 - Next steps -
 - resolve ballot comments
 - specify other kinds of catalogues - use cases, specification, artifacts, examples
 - devices, medications, order sets
 - PHAST - Medication content
 - Use Case 1 - Master catalog of medications for jurisdiction
 - all drugs that can be ordered within a country
 - catalogue provided to each organization - all applications can import into their own dictionary
 - Use Case 2 - Healthcare organization drug formulary
 - healthcare organization maintains its drug formulary and shares it to the applications used by practitioners
 - could also be from outside of the organization
 - Use Case 3 - Combination of use cases 1 and 2
 - synchronize the 2
 - MedicationKnowledge plus ClinicalUseIssue - seem to fulfill the 3 uses cases in terms of content
 - Question - will MedicationKnowledge and ClinicalUseIssue will be in R4B?
 - want current state
 - R4B will be a technical correction of R4 plus MedicationDefinition and Evidence Resources
 - will not include updates to MedicationKnowledge
 - Should MedicationKnowledge be included in R4B?
 - If there is urgency for this, suggest a tracker be created - separate issue for the 2 different resources
 - segmentation of formulary is a requirement
 - we have a patient perspective on the use cases
 - Pharmacy has worked on use cases - Melva will send the use cases to Francois
 - PDex - built to support ONC rules - allowing patient the capability to see what the drugs will be covered
 - there may be use cases coming out of Unicom
 - Next steps
 - consolidate use cases
 - Will come back to Pharmacy once ballot reconciliation is complete for lab
 - September 14, 2020 - no meeting today
 - September 4, 2020
 - Prep for upcoming Connectathon discussed
 - Confirmed attendance at upcoming Pharmacy WGM
 - Rob H shared he had a contact (no name mentioned) that was interested in working on a Medication catalog. Rob did state he told them to reach out to Pharmacy for follow up.
 - August 24, 2020 - no meeting
 - August 10, 2020 - no meeting

Workflow Update (John Hatem)

 - transaction to convey additional information
 - working to gather requirements
 - participated in connectathons
 - looking for additional implementer feedback
 - users of this guide - pharmacy systems involved in fulfilling a specialty prescription; a specialty hub; other party
 - data source system would be an EHR associated with system that generated the prescription
 - Using Messaging
 - Next steps
 - Plans to submit to NCPDP to get feedback from stakeholders in November
 - will drive next steps
 - NIB deadline for HL7 is November 1, 2020
 - will come back to Pharmacy WG on next weeks call
- September 14, 2020
 - Connectathon last week
 - had pharmacies, EHR and hubs represented
 - didn't get as much technical feedback as was hoped
 - didn't have participation with a mock application or an actual implementation to validate
 - Balloting in January 2021 is to be determined
- August 24, 2020
 - hoping to submit voting item for November voting cycle at NCPDP
 - hope to incorporate comments in January HL7 ballot
 - hope to bring to HL7 after Connectathon
 - need to bring content to Pharmacy WG for review
- August 10, 2020
 - Implementation Guide - making progress
 - plan to participate in September Connectathon
 - schedule a review of IG when ready
- August 3, 2020

 - September 14, 2020
 - may do a project proposal but still to be determined
 - August 24, 2020
 - Scott to connect with Shelly about next steps for this
 - PSS is not ready to be submitted - Scott will work with NCPDP to complete
 - May ballot cycle at the earliest - won't likely make that time
 - August 10, 2020
 - draft PSS - Scott
 - Scott will talk to group about expectation - Aug 23 deadline for approval for TSC - not enough time to get sponsor, co-sponsor, FMG, USRSC and Steering Division before this date.
 - August 3, 2020
 - outstanding to get PSS finished for MTM - Scott to reach out to Shelly
 - next task group meeting is August 27th
 - July 27, 2020
 - Scott to look at the status of the PSS
 - deadline for approval by WG is August 28th

DaVinci PDex Formulary Project

- Technical Correction Items (Dave Hill)
 - there are 4 Jira issues for discussion

- in current IG - daVinci is capitalized and not capitalized
 - converted all to lower case to be consistent with other daVinci IGs
- conversion to new FHIR IG template -
- error in index page for search queries - spelling mistake to be fixed
- Zip files - use of upper case "D" on daVinci
 - converted to lower case
- Motion to approve the disposition of the 4 Jira Issues: FHIR-28361, 23127, 28362, 28494
 - Moved by Scott - seconded by Dave Hill - 10-0-0 Carried
- Need approval from Pharmacy and then FMG and TSC
- Will need to vote on a publication - Dave will create and then come back to Pharmacy
