Motion to accept proposed and accepted.

Agenda Topics

Agenda Outline	Agenda Item	Status	Lead	Meeting Minutes from Discussion
Management	Quorum Minutes Approval	N/A	Julie	<i>Quorum is met</i> <i>Motion to approve Minutes proposed</i> <i>RB moves, SM seconds: Motion 6-0-0</i>
Topic	New PSS	Continuus	Julie	No new PSS; need to get Terminology on the PSS/NIB process formally

Topic	External SDO Issues or additional topics	Continuus	Carol	<p>Confirm wording for the third party copyright statement for LOINC</p> <p>On HTA page, will note that there is third party copyright and put the link to the LOINC page - done (Julie)</p> <p>General third party statement to be communicated to ___ via _____</p> <p>"Please note that some content (for example proprietary assessment scale content in LOINC) is subject to copyright from third parties' (and/or language translation copyright), and may be present in an HL7 specification and must be utilized under the applicable terms of use from the third party. For further information and for details of how implementers should manage use of additional party content (including license obligations) please see the copyright information of the originating code system."</p> <p>Motion:</p> <p><i>SM moves, DG seconds: Motion 6-0-0</i></p> <p>Reuben Daniels to take this to TSC along with the agenda item below</p>
Topic	HL7 Terminology Single Repository and Supporting Process	Ongoing	Reuben	<p>"Vocab, FHIR-I and HTA recommend that HL7 create a single maintained authoritative repository of information about external code systems and their use (e.g., copyright and identifiers) in HL7 artifacts at terminology.hl7.org. The authority for changes to the repository content rests solely with HTA. Inclusion of external code system code content will follow HTA processes.</p> <p>Usage in HL7 artifacts specific to product families will reside where product family management deem them to reside. "</p> <p>Motion approved at the final meeting of Vocab/FHIR-I and HTA</p> <p>Need to take this to TSC (Austin/Anne W):</p> <p>Reuben Daniels (1) get this onto TSC Agenda via email to Austin and Anne</p> <p>Reuben Daniels and Rob McClure 2) Speak to this to TSC</p> <p>Also need to consider the "rapid processing" infrastructure and be ready to implement this</p>
Topic	EDBA Content	New	Julie - Jim McClay from ECWG	<p>Emergency Department Benchmarking Alliance (EDBA) https://doi.org/10.1111/acem.13978</p> <p>Not present, will look to address on next call (or inbetween)</p>
Topic	HTA Content Pages Review	Continuus	Reuben	<p>Raw data is available here</p> <p>HTA members need to take on code systems and address the issues in the excel spreadsheet located here (please indicate your name and note when you're done via a note along with date in the "Correct as Of" (e.g. " 20201015 - The content on this page is suitable for production use")</p> <p>Reuben Daniels to run against current build</p> <p>For any blanks, please insert an "N/A"</p>
Topic	External Code Systems	Continuus	Susan	<p>IN PROGRESS</p> <p>2) Canonical URLs for nursing classifications ICF, ICNP, LEP, ENP, CCC</p> <div data-bbox="607 1283 1409 1453" style="border: 1px solid orange; padding: 10px; margin: 10px 0;"> <p>JIRA:  FHIR-25263 - Jira project doesn't exist or you don't have permission to view it.</p> </div> <p>Zulip: https://chat.fhir.org/#narrow/stream/179202-terminology/topic/canonicals.20for.20classifications.20of.20nursing.20interventions</p> <p>The ICNP terminology is being incorporated into SNOMED and it is not clear how/whether ICNP will continue to be maintained as a separate terminology; a subset of ICNP is currently part of GPS. Susan will follow up for ICNP and also CCC.</p> <p>Sylvia to follow up on ICF - rehabilitation etc.https://apps.who.int/classifications/icfbrowser/Default.aspx (browser link) and LEP - https://www.lep.ch/de/</p> <p>ENP Page set up; only some content present to date</p>
Topic	UTG Update	Continuus	Carol /Ted	<p>UTG 2.0 Release in progress. Maybe this week....maybe next...</p> <p>Well known terminologies like SCT, RxNorm and UCUM don't get displayed at terminology.hl7.org. Grahame has committed to making technical changes to allow for publishing the FHIR code system stubs.</p> <p>Separately, the question on whether the various SCT extensions should be represented as a separate Code system stub.</p>

Topic	Rapid Processing for Code Systems	New	Mary Kay	Needs to implement the "rapid processing" for code system stubs. TK & RD have started laying out the process - starting with new content and working onward. MK can be included in that too - once the scenarios and pathways are drafted. CM: surely what MK needs is for us to get the CS metadata and get those stubs in. HTA owns the relationship with the requestor; we put the request in using the tools and when the artefacts are ready we notify the requestor. MK: Review the HTA External CS pages on Confluence....Identify all the code systems. If we have all the information correct, it's OK. If it's not correct, tell us what we need to change. If the CS is not there, give us the data we will get it added. MK to send the spreadsheet with the CS list to Reuben/Julie/Carol
Topic	Any Other Business	Continuo us	Julie	
Adjournment	Meeting adjourned	N/A	Julie	Call adjourned at xx.xx BST
