Mission:
This council supports the HL7 mission by ensuring the quality and availability of education and learning provided by HL7 International and nurtures an HL7 educators community of practice.

Charter:
The HL7 Education Advisory Council guides the development and administration of HL7 education initiatives.

Products and Contributions to HL7 Processes
The following are the Council's formal activities:

- Collaborate with HL7 Work Groups to advise on the development and enhancement of educational offerings to meet the needs of stakeholders in healthcare interoperability (including our members).
- Collaborate with HL7 staff to provide and schedule tutorials and other educational offerings.
- Collaborate with external stakeholder organizations on the development and enhancement of educational offerings that meet the needs of stakeholders in healthcare interoperability.
- Foster the development of certification programs according to best practices.
- Provide and determine Certification Governance and maintenance processes.
- Maintain and develop quality assurance processes for HL7 educational offerings.

The Education Advisory Council operates via the HL7 website, this confluence page, a dedicated list-server, bi-weekly conference calls and meetings at HL7 working group meetings.

Formal Relationships With Other HL7 Groups

- HL7 Board of Directors, including the Executive Committee – establishes the direction for an enterprise-wide education strategic plan
- HL7 International Council - Coordinate education efforts
- All HL7 Workgroups can collaborate with the EAC to produce and maintain education offerings.
