Known Issues with the published FHIR Specifications

This page is effectively triage for candidate issues for future technical corrections.

Known R5 Issues
R5 is not yet published

Known R4B Issues

- The underlying structure definitions (rightly) say that \texttt{Resource.id}, but the presentation in \url{http://hl7.org/fhir/resource.html} and \url{http://hl7.org/fhir/resource-definitions.html#Resource.id} says 'string' not 'id' (see 37544).

Known R4 issues

- \texttt{TIM-9} assumes that \texttt{Timing.when} does not repeat. The java validator still functions correctly because the java FHIRPath implementation doesn't follow this rule: "If the left operand has multiple items, an exception is thrown". See \url{https://chat.fhir.org/#narrow/stream/179266-fhirpath/topic/tim-9} (note: the test care-plan.json test this, and needs correction too)
- Fixes to schematrons: \url{https://chat.fhir.org/#narrow/stream/179166-implementers/topic/Schematron.20issue.20in.20R4}
- Fixes to declaration of \texttt{resource.id}: \url{https://chat.fhir.org/#narrow/stream/179166-implementers/topic/bug.20in.20canonical.20SD} (FHIR-25274)
- \url{https://jira.hl7.org/browse/FHIR-25297}

Known R3 Technical Corrections

- \url{http://hl7.org/fhir/SearchParameter/example} duplicated in package
- \url{https://chat.fhir.org/#narrow/stream/179177-conformance/topic/FHIR.203.2E0.2E2.2E.20invalid.20eld-16.20constraint}
- \url{https://jira.hl7.org/browse/FHIR-25734}
- \url{https://chat.fhir.org/#narrow/stream/179177-conformance/topic/STU3.20StructureDefinition-example.20slicing}

Known R2 issues

- missing id - \url{https://chat.fhir.org/#narrow/stream/179166-implementers/topic/missing.20id.20profiled.20types.20in.20DSTU2}
