Creating from Templates

Templates are the best way to create agendas, minutes, attendance logs, PSS's and more.

Step-by-step guide

1. Click on the create ellipsis in the top middle of the screen

2. Select the template or blueprint you want to use or Show more to see more, then press Create:

   ![Create button and template options]

3. For the example, we will be using the HL7 Specification Withdrawal Template
   a. Note the 3 icons at the top of the page. The first allows you to define where you would like the page to live if it is somewhere other than where you are currently creating it. The second is a label tag to add labels to the page you're creating. The last is the restrictions icon. Info on all of these can be found in other places of this HL7 Documentation and Help Space to include webinars.

   ![Page title and icons]

   b. The TITLE of the page will be blank - use a meaningful title

   ![Page title and template]

   c. You will see number of items in Grey: These are 'help' text. Click on them to replace them with the described text.
d. When you click on a date control it will expand into a calendar:

![ HL7 Specification Withdrawal Template ]

- Enter the date here
- Official Document/Standard Name
- Select a date.

January 2016

- Mon
- Tue
- Wed
- Thu
- Fri
- Sat
- Sun

Select a date:

1. 2. 3. 4. 5. 6. 7. 8. 9. 10. 11. 12. 13. 14. 15. 16. 17. 18. 19. 20. 21. 22. 23. 24. 25. 26. 27. 28. 29. 30. 31.

Status:
- Balloted but not published
- Published
- Neither
- Reason for withdrawal:

f. User information may be entered by using the at sign (@) and selecting the user from the list.
g. Press Preview to see the document as it will be stored: NOTE - in preview all of the help text is no longer displayed.
h. If the document is ready, press Publish.
i. If not, press edit to return to editing.

---

**Duplicate warning**

Warning: Watch for a duplicate document name:

![ Duplicate warning ]

- A page with the title 'HL7 Specification Example withdrawal' already exists in this space. Enter a different title for your page.
