IG Proposals

Archived Proposals found here: IG Proposals on the Wiki

Also see profile proposals and resource proposals.

This page provides a complete listing of all proposals that have been made for FHIR profiles to be published as part of FHIR core. Proposals are subject to a FHIR Resource Governance Process that will determine whether the proposal is accepted. Acceptance is generally a pre-requisite to the creation of the HL7 GitHub repository for the guide and ensuring access for the listed individuals.

The below categories are used for overview of the approval process and general viewing. During the approval process applicable labels will be added /removed.

The label categories are as follows: fhir-ig-proposal-pending, fhir-ig-proposal-approved, fhir-ig-proposal-retracted
