Governance Groups - Requirements

So, what are the special requirements for groups which manage or govern

- Precepts - Need to define presepts
- Glossaries - Is this THE HL7 glossary?
- Determine space to contain items
  - Research if such functions can be "space agnostic", or
  - Do we have to put in a common space like HL7 or HL7 Documentation & Help
  - Knowledge items to review, publish, search - this is shared by methodology groups too
  - Do we document approval mechanisms here?
- Closed space during development before publicly available
- We have created a space for the Standards Governance Board (SGB) to begin determining and documenting unique governance requirements when identified
- What about the PSS workflow?
