Initial Areas of Focus - DRAFT

- Inventory of aggregate measures (Keith, Rick, etc.)
  - HHS Teletracking
  - State specific

  Some to gather and prepare.

- Refine focus into buckets based on likely sources depending on data needs for a measure.
  - Asset Management systems
  - Bed Management systems
  - Care Management Systems
  - Clinical Data Repository (CDR)
  - Command and Control Systems
  - Departmental Systems
    - Emergency Department (ED) systems
    - ICU and/or Nursing Central Monitoring systems (or stations)
    - Labor and Delivery systems
    - Laboratory Information Systems (LIS)
    - Picture Archival and Communication Systems (PACS)
    - Radiology Information Systems (RIS)
  - Electronic Health Record (EHR) systems
  - Electronic Laboratory Reporting Solutions
  - Immunization Information Systems (Immunization Registries)
  - Inventory Control systems
  - Master Patient Index
  - Public Health Case Reporting Solutions
  - Revenue Cycle Management/Billing Systems
  - Security Infrastructure
  - Surgery/Operating Room Scheduling systems
  - Workforce Management/Staff Scheduling systems

Team discussion

- Prioritize focus
  - EHR/Patient data first? Or other bucket?
  - What data is needed during normal state vs. emergency state?
  - Prioritization Spreadsheet

Team discussion

- Review of current guidance/capabilities (status, capabilities, gaps)
  - SANER Overview – Keith Boone
  - DaVinci Data Exchange for Quality Measures (DEQM) - Bryn Rhodes
  - MedMorph/veCR overlaps?
  - NHSN Link Overview – Rick Geimer
  - Cumulus – Ken Mandl
  - USCDI+
  - CDC/ASPR/CMS Data Reporting Requirements

Respective initiative reps.

- Planning steps on what we need to focus on.
  - From where we are, what’s available, to what works.
  - More implementation guides?

TBD
