### Objectives 2022/23

#### Short term Objectives (by 30.06.2022)

1. **How to move things forward?**
2. **HL7 FHIR artifact published as HL7 Europe. Possible content: EU wide profile**
   - a. EHIC profile;
   - b. Reference to relevant national profiles (e.g., specialized identifiers): Naming Systems; Value Sets).
   - c. Subtask: Proposal for a publication process for HL7 EU (open for discussion)
   - d. **What we can say / do about it?**
     - (Germany) [https://simplifier.net/basisprofil-de-r4/~resources?category=Profile](https://simplifier.net/basisprofil-de-r4/~resources?category=Profile)

   - possible approach common profiles for things like an EU IPS
     - granular profiles (identifiers, naming systems, ...)

1. **HL7 FHIR IG Template for Affiliates (requirements + template).** **DONE** easy to reach? *(Jose Costa-Teixeira)*
2. **Present TNT and its goals/objectives to the HL7 TSC**
   - a. May?
3. **Provide technical support to the “hospital on fhir initiative”**
   - a. *(Giorgio Cangioli)*
   - b. see below

#### Medium Objectives (by end 2022)

1. **myHealth@eu and agreed XeHealth value sets published through HL7 EU**
   - a. Should we do that right now?
   - b. Could we link this to the request of having myHealth@EU value sets published as FHIR resources?
2. **Requirements for multilanguage support for FHIR IG publication.**
   - a. Should this be moved ahead?
3. **Webinar for technical representative from affiliates (e.g. FHIR IG publication; sharing implementation experiences).**
   - a. Should we link this to the following threads
   - b. the coexistence of CDA and FHIR solutions (see [https://chat.fhir.org/#narrow/stream/281293-europe.2FTNT/topic/CDA.20and.20FHIR.20infrastructure](https://chat.fhir.org/#narrow/stream/281293-europe.2FTNT/topic/CDA.20and.20FHIR.20infrastructure))
   - c. **Terminology services** (see [https://chat.fhir.org/#narrow/stream/242580-europe/topic/terminology.20services](https://chat.fhir.org/#narrow/stream/242580-europe/topic/terminology.20services))
4. **Evaluation of the need of a more formal governance of TNT**
   - a. I don't think this is a needed for the time being

### Hospitals on fhir

The goal is the creation of network of hospital to facilitate intra and inter regional, national and cross-national health data exchange.

1. The initiative is proceeding with the preparation/engagement phase.
   - a. Kick off virtual meeting **March 31st**
2. Dedicated site is under preparation.
3. How to engage hospitals?
4. How to organize the technical work?

### Hospital on fhir

From previous Calls

- **Jens Villadsen**: for DK is not a Hospital but Regional matter and probably through Scandinavia
- **Jose Costa-Teixeira**

In Belgium we are planning to do something about mapping the different actors across sites. We plan to do this as part of our certification process - when a system TNT is certified, they should show on the map.

- **Christof Gessner** For Germany a large study was just started, led by Sylvia: [https://www.digitalradar-krankenhaus.de/ueber-uns/](https://www.digitalradar-krankenhaus.de/ueber-uns/)

In gematik we are working on common metadata for hospital document exchange [https://simplifier.net/ISiK-Dokumentenaustausch](https://simplifier.net/ISiK-Dokumentenaustausch) and some other topics for hospital standardisation with FHIR: [https://simplifier.net/isik](https://simplifier.net/isik)

- **Roman Radomski** Polish hospitals are rather FHIR clients dealing with FHIR APIs of central (government) systems.
Hospitals, and indeed large healthcare organizations in Europe have two fundamental responsibilities regarding the health data they collect and care for:

1. To share it amongst themselves, including cross-border, to provide responsible and easy patient care.
2. To make it available for regional national and European secondary use, within safe and regulated means, in such ways that research, public policy and public health can be fostered.
