Modeling and Methodology

This work group has merged into the FHIR-I work group.

Mission

The Modeling and Methodology Work Group (MnM) is responsible for:

- creating and maintaining the HL7 Development Methodology and facilitating its use;
- maintaining a Reference Model and Data Types Model that govern the shared models that are developed and used by the HL7 Work Groups creating designs in model-based standards development;
- managing and approving modeling patterns and reusable modeling constructs for HL7 designs; and
- developing and enforcing good modeling practices.
